

Cara Readiness TOEIC Internet-Based Test (Listening, Reading and Speaking, Writing)

Urutan Langkah Readiness:

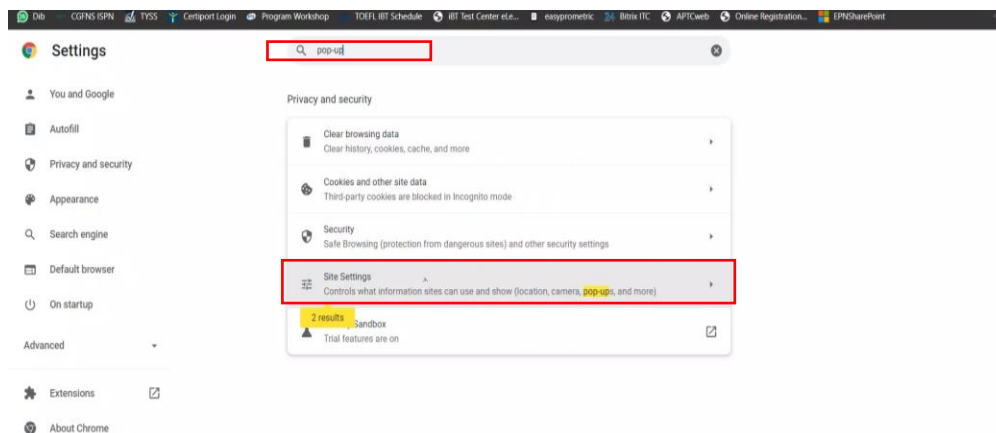

1. Mengaktifkan fitur Pop-Up Windows di Browser Google Chrome/Mozilla Firefox
2. Melakukan Pengecekan System (Readiness) dari Web ETS
3. Download Aplikasi TOEIC Secure Browser yang digunakan untuk tes
4. Melakukan Check Audio and Microphone
5. Melakukan **System at Home check** hanya bagi peserta yang tes Dari Rumah

Cara mengaktifkan Pop-Up Windows di Browser Google Chrome/Mozilla Firefox

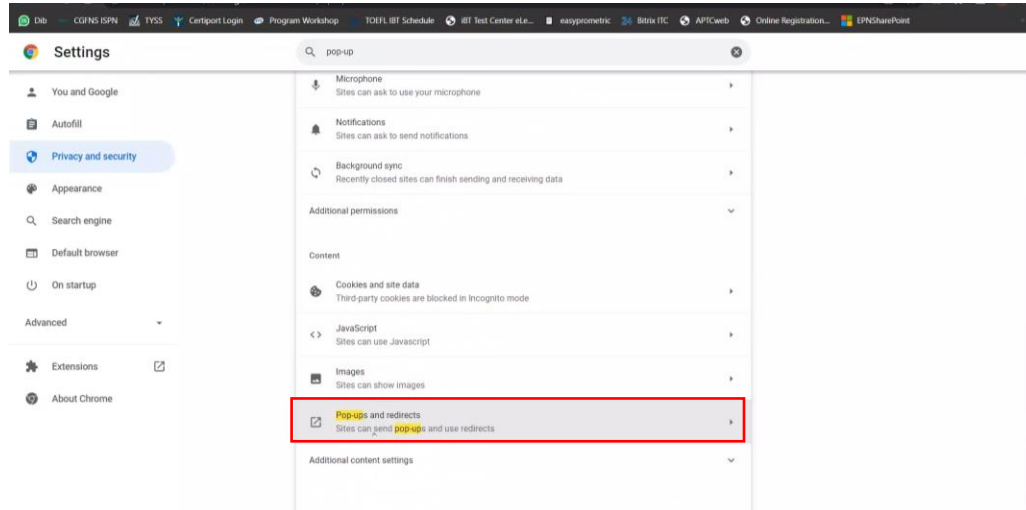

1. Buka Browser google chrome, klik lambang **titik 3** di pojok kanan atas layar dan klik **Settings**

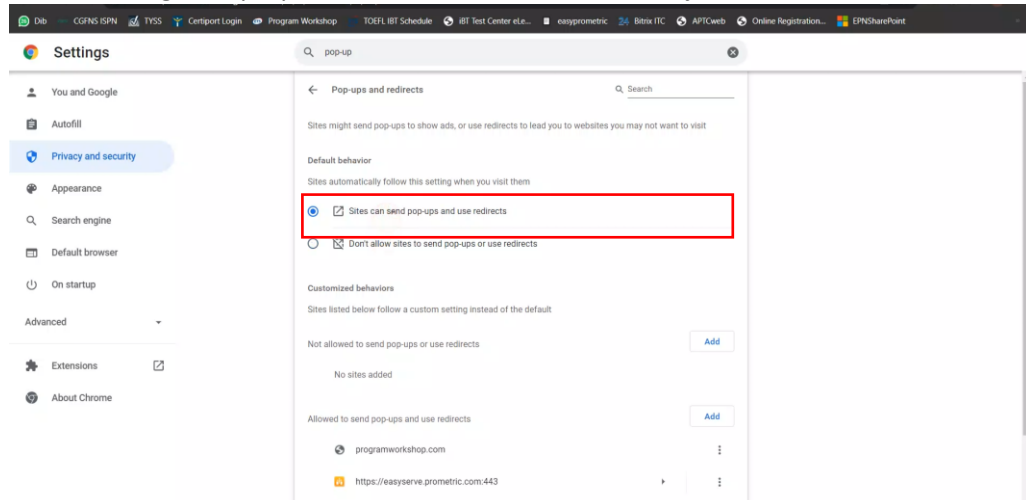

2. Pada menu search, ketik **“Pop-up”** kemudian klik pada bagian **Site Settings**

3. Scroll kebawah kemudian klik pada bagian **Pop-up and Redirects**

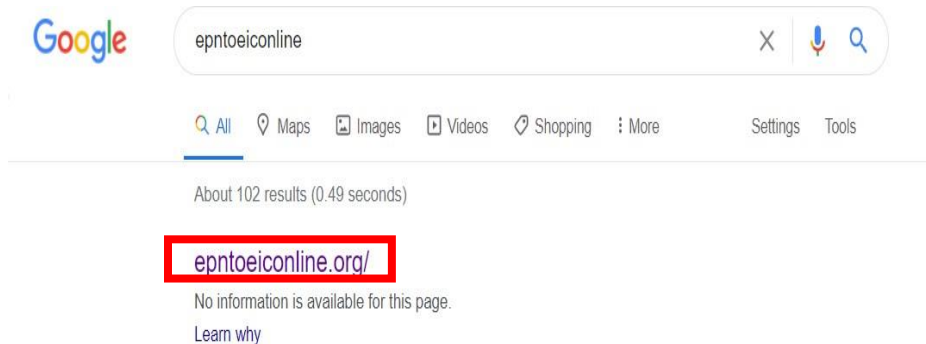

4. Rubah settingan Pop-up Windows dari **Not Allowed** menjadi **Allowed**

Cara Readiness TOEIC Internet Based Test Listening Reading & Speaking and Writing

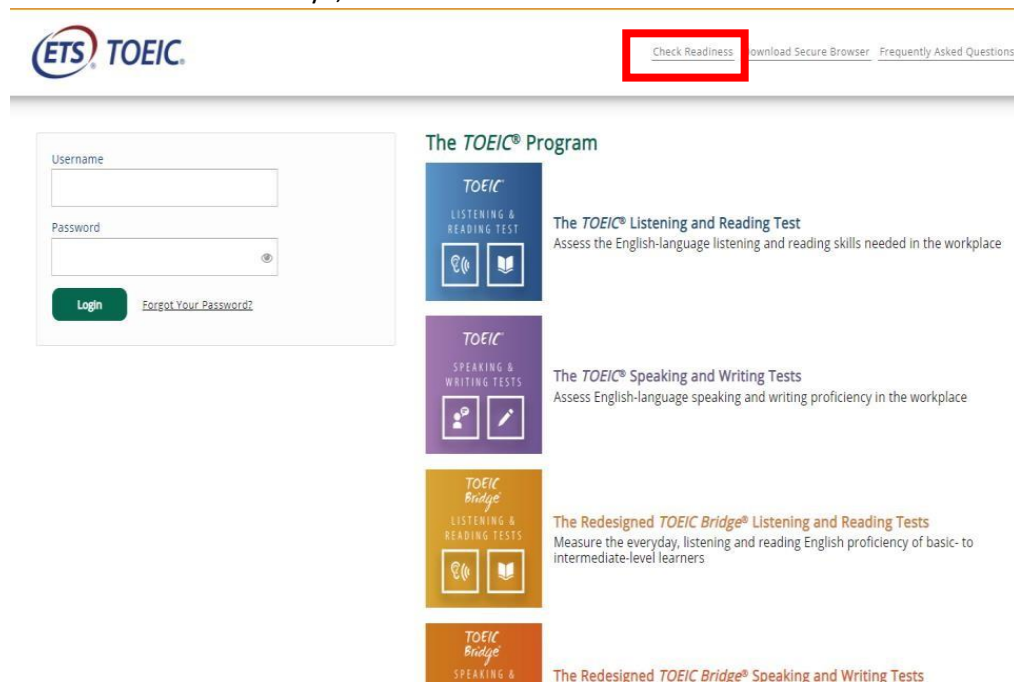

1. Buka browser google chrome di laptop/komputer yang akan digunakan tes lalu ketik **EPNTOEICONLINE.ORG**, sampai muncul seperti gambar yang ada dibawah, kemudian klik kiri seperti gambar yang ada dibawah.

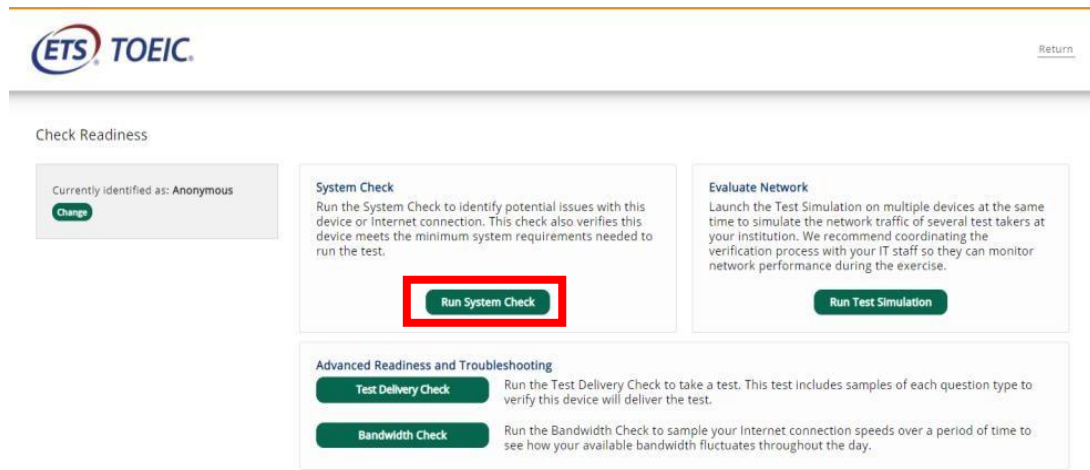

*Note : Jika link tidak bisa terbuka, gunakan Link dibawah :

<https://www.programworkshop.com/pw2/core/4.0/Login/Login/Home?SK=414>

2. Setelah terbuka halaman websitenya, klik tombol **check readiness**

3. Setelahnya klik **Run System Check** seperti gambar yang ada dibawah

The screenshot shows the 'Check Readiness' page of the ETS TOEIC interface. It features a header with the ETS TOEIC logo and a 'Return' link. The main content area is divided into three sections: 'System Check', 'Evaluate Network', and 'Advanced Readiness and Troubleshooting'. The 'System Check' section includes a description of the check and a red-bordered button labeled 'Run System Check'. The 'Evaluate Network' section includes a description and a 'Run Test Simulation' button. The 'Advanced Readiness and Troubleshooting' section includes two buttons: 'Test Delivery Check' and 'Bandwidth Check', each with a corresponding description.

Check Readiness

Currently identified as: Anonymous [Change](#)

System Check
Run the System Check to identify potential issues with this device or internet connection. This check also verifies this device meets the minimum system requirements needed to run the test.

Run System Check

Evaluate Network
Launch the Test Simulation on multiple devices at the same time to simulate the network traffic of several test takers at your institution. We recommend coordinating the verification process with your IT staff so they can monitor network performance during the exercise.

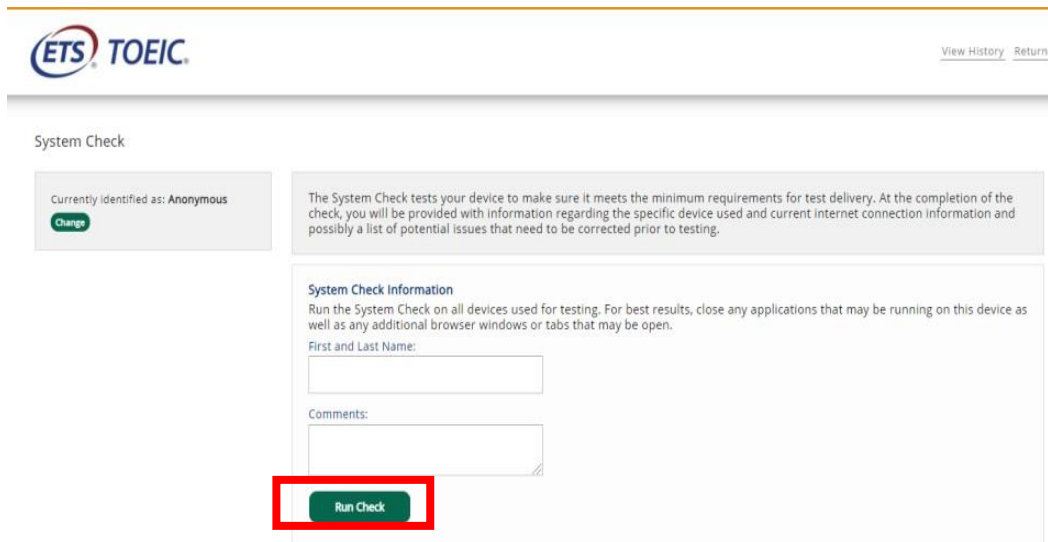

Run Test Simulation

Advanced Readiness and Troubleshooting

Test Delivery Check Run the Test Delivery Check to take a test. This test includes samples of each question type to verify this device will deliver the test.

Bandwidth Check Run the Bandwidth Check to sample your Internet connection speeds over a period of time to see how your available bandwidth fluctuates throughout the day.

4. Setelahnya klik **Run Check**

The screenshot shows the 'System Check' page of the ETS TOEIC interface. It features a header with the ETS TOEIC logo and links for 'View History' and 'Return'. The main content area includes a 'System Check' section with a description of the check and a red-bordered button labeled 'Run Check'. Below the description, there is a 'System Check Information' section with a text area for 'First and Last Name' and a text area for 'Comments'.

ETS TOEIC [View History](#) [Return](#)

System Check

Currently identified as: Anonymous [Change](#)

The System Check tests your device to make sure it meets the minimum requirements for test delivery. At the completion of the check, you will be provided with information regarding the specific device used and current internet connection information and possibly a list of potential issues that need to be corrected prior to testing.

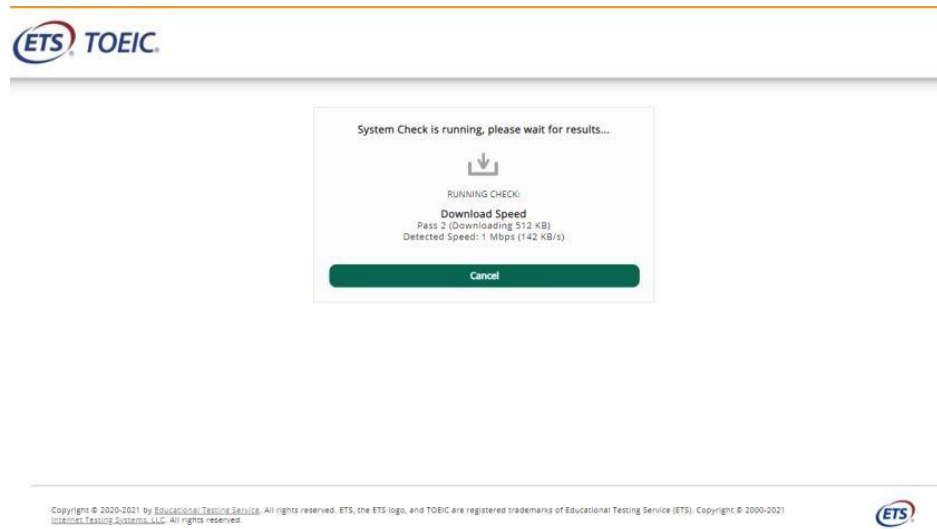

System Check Information
Run the System Check on all devices used for testing. For best results, close any applications that may be running on this device as well as any additional browser windows or tabs that may be open.

First and Last Name:

Comments:

Run Check

- Kemudian tunggu sampai selesai loading, komputer/laptop akan melakukan system check dari website ETS.

- Pastikan Hasil dari readiness adalah ceklis hijau (✓), menandakan komputer/laptop memenuhi semua persyaratan tes TOEIC Internet Based Test, jika masih belum ikuti instruksi dan keterangan yang ada di layar system check, kemudian system check ulang sampai hasil readinessnya menjadi ceklis hijau (✓).

7. Jika hasil readiness pada bagian **Check** hasilnya terdapat **“Trace Route”**, laptop Anda sudah bisa digunakan untuk tes, tetapi koneksi Anda masih kurang stabil

ClickOnce Secure Browser for Windows

The ClickOnce Secure Browser is a locked-down version of an internet browser that prohibits access to other applications during testing. This Secure Browser must be installed on all devices that will be used for testing. Install the Secure Browser by downloading the provided install file. Administrator rights are not required for installation.

Download and Install on Windows

1. Select the **Download** button located underneath these instructions.
2. Depending on your browser settings, the install file will download in one of the following ways:
 - The install file will automatically download to the default location, typically your desktop or **Downloads** folder.
 - You will be prompted to run or save the install file. Select either option. If you select **Save**, the install file will download to the default location.
3. Double-click the install file to begin the Secure Browser installation.
4. You will receive the following Security Warning: "Do you want to install this application?" Select **Install**.
5. The Secure Browser is installed, and a shortcut is added to your desktop. A dialog box informs you that installation is complete. Select **OK**.
6. Double-click the **Secure Browser** shortcut icon on your desktop to open the Secure Browser. After installing the Secure Browser, the install file is no longer needed. Use the desktop shortcut to open the Secure Browser.

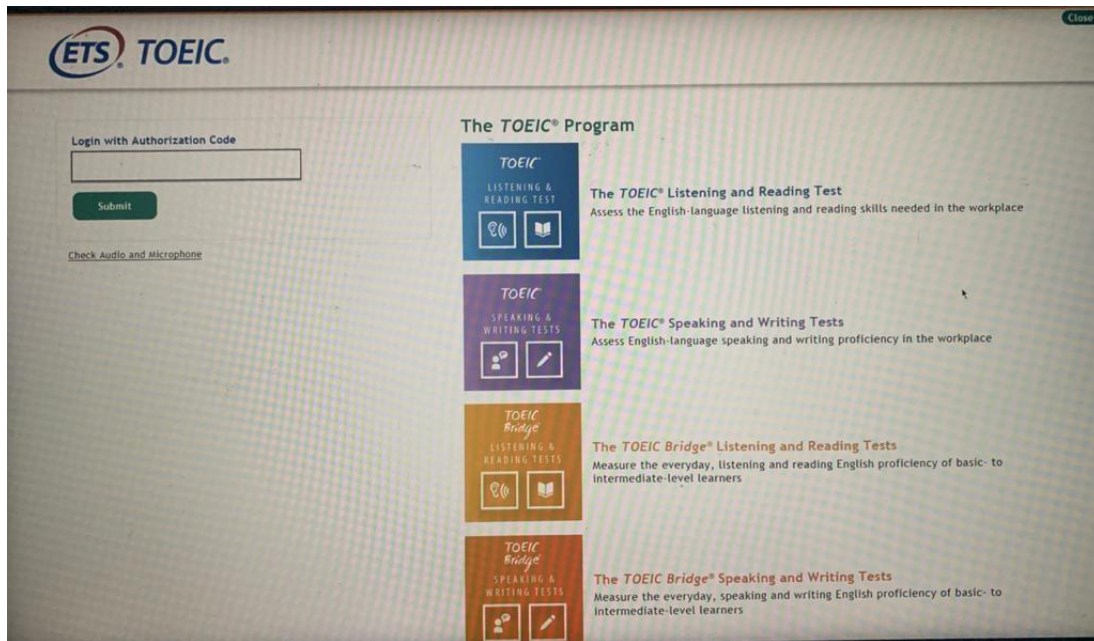

[Download](#)

- Setelah terdownload, lakukan installasi seperti biasa sampai Icon Program muncul di desktop seperti gambar yang ada dibawah :

 TOEIC Secure Browser	13/08/2020 11:37	Application	197 KB
--	------------------	-------------	--------

- Setelahnya klik 2 kali pada Icon TOEIC Secure Browser sampai muncul halaman login seperti yang ada dibawah :

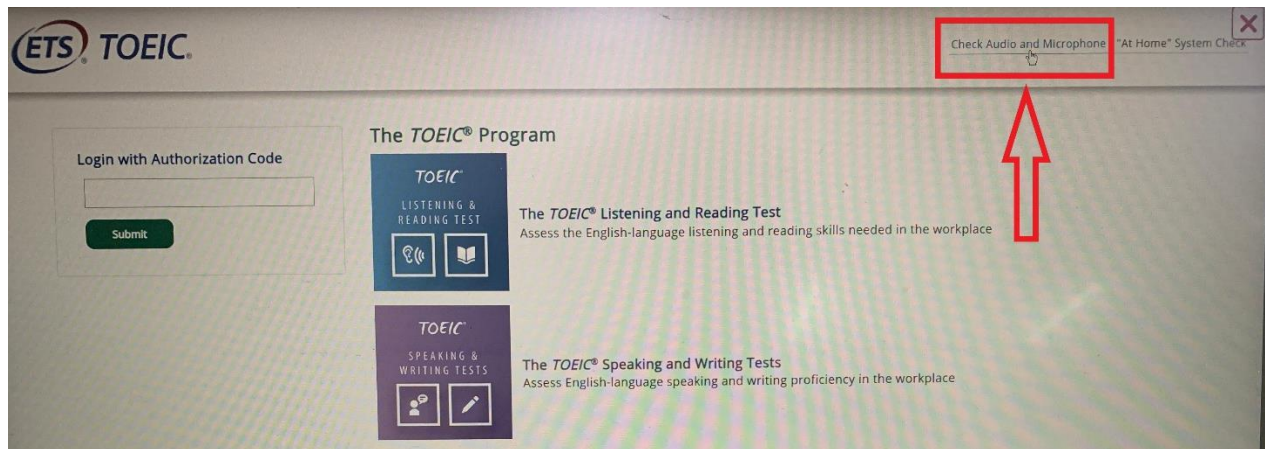

The screenshot shows the ETS TOEIC login interface. At the top left is the ETS TOEIC logo. Below it, on the left, is a login section titled "Login with Authorization Code" with a text input field and a "Submit" button. Below the button is a link that says "Check Audio and Microphone". On the right side, under the heading "The TOEIC® Program", there are four colored boxes representing different test sections: 1. TOEIC LISTENING & READING TEST (blue box) with a description: "The TOEIC® Listening and Reading Test Assess the English-language listening and reading skills needed in the workplace". 2. TOEIC SPEAKING & WRITING TESTS (purple box) with a description: "The TOEIC® Speaking and Writing Tests Assess English-language speaking and writing proficiency in the workplace". 3. TOEIC Bridge LISTENING & READING TESTS (orange box) with a description: "The TOEIC Bridge® Listening and Reading Tests Measure the everyday, listening and reading English proficiency of basic- to intermediate-level learners". 4. TOEIC Bridge SPEAKING & WRITING TESTS (orange box) with a description: "The TOEIC Bridge® Speaking and Writing Tests Measure the everyday, speaking and writing English proficiency of basic- to intermediate-level learners".

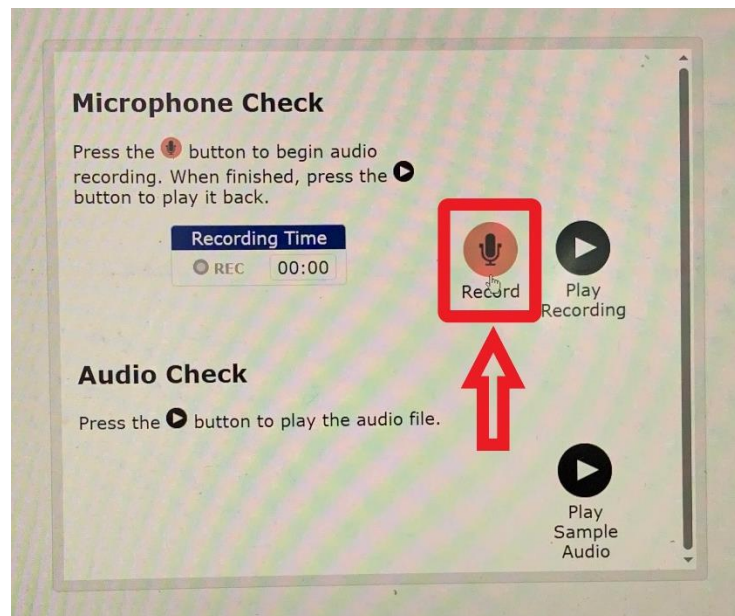

Cara Melakukan Check Audio and Microphone

1. Proses ini dilakukan untuk memastikan headset peserta bisa berfungsi dengan baik untuk tes TOEIC Speaking Writing dan diwajibkan menggunakan headset kabel.

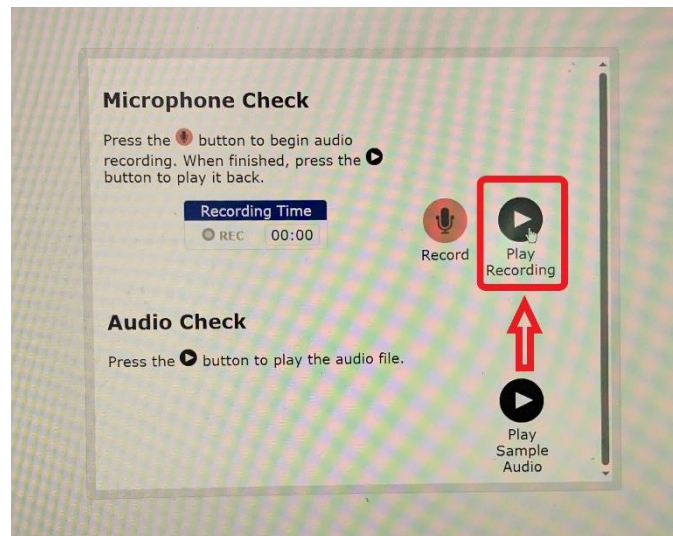

Pada menu login, klik tombol **Check Audio dan Microphone** di pojok kanan atas

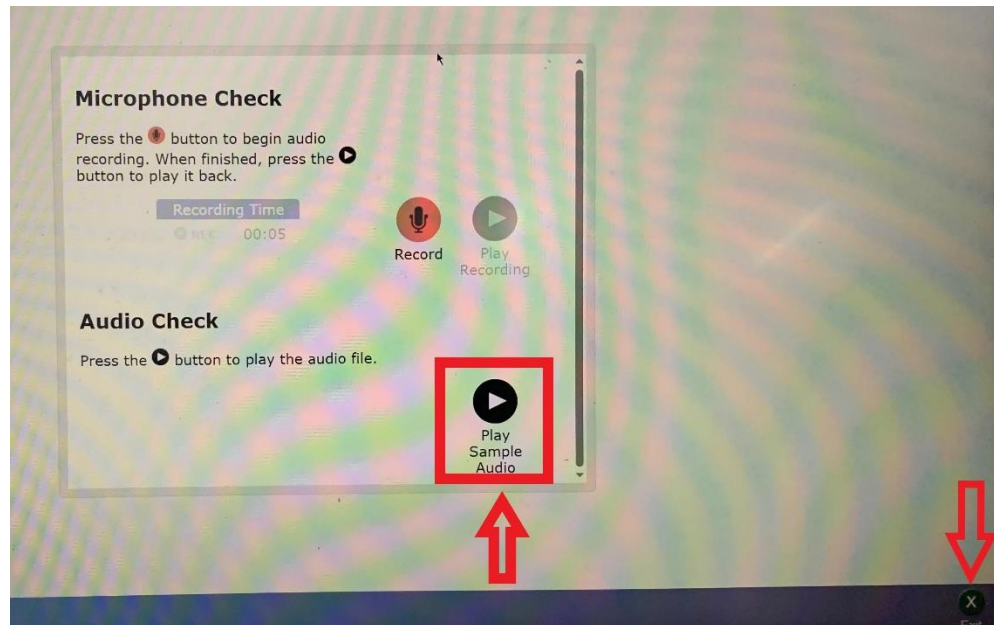

2. Pada halaman ini, klik lambang microhpone dan bicaralah dengan suara biasa.

3. Klik tombol “Play Recording” untuk mendengarkan hasil suara dari headset, pastikan pada bagian ini Anda mendengar suara Anda dengan jelas

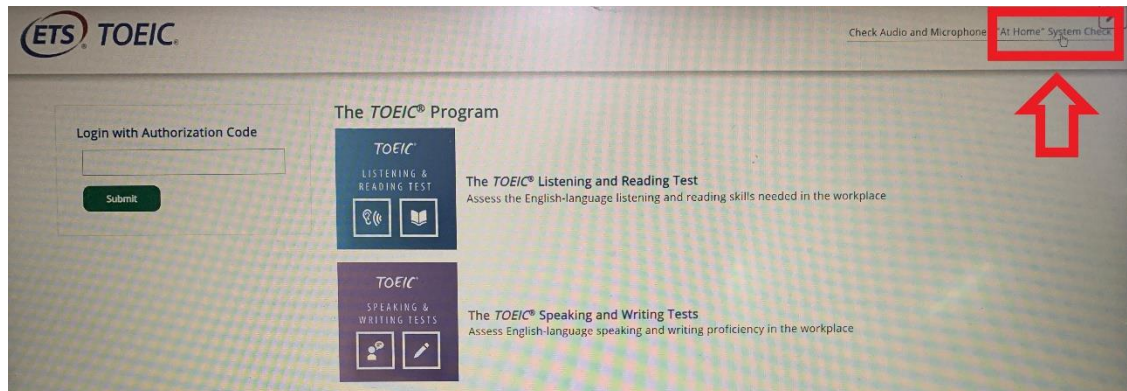

4. Klik Play Sample Audio, jika sudah klik Exit untuk keluar dari program

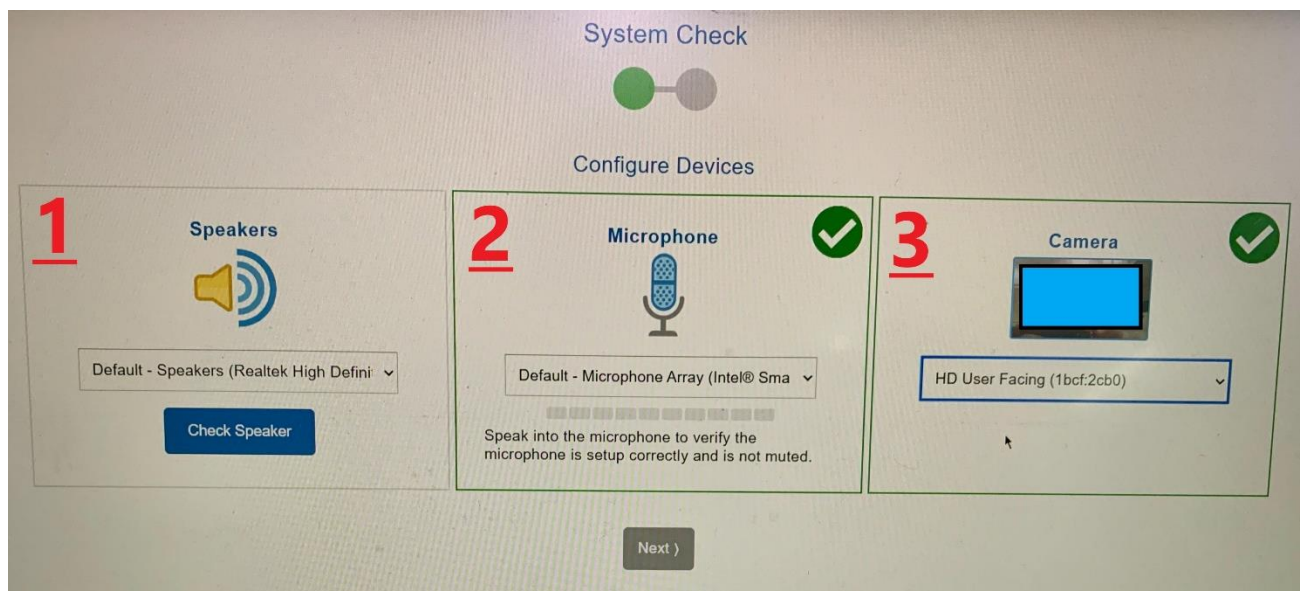

Cara Melakukan System Check at Home

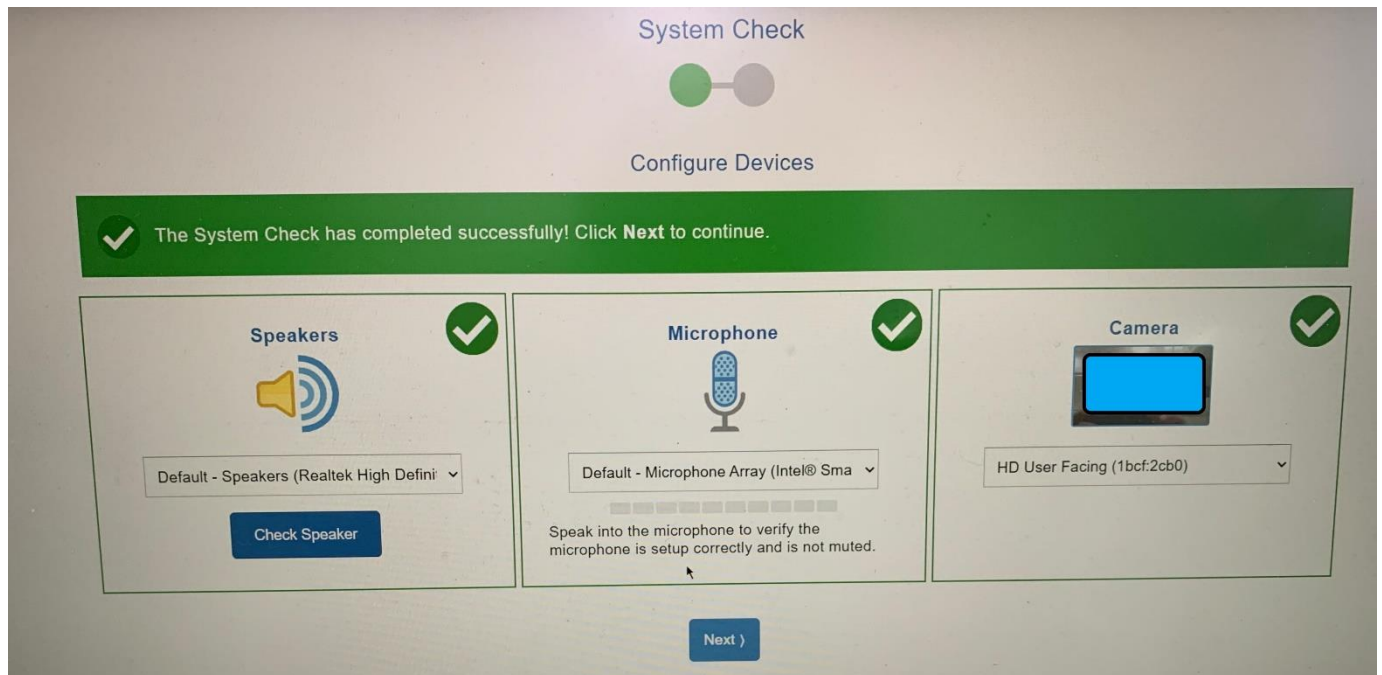

1. Langkah ini wajib dijalankan **hanya bagi peserta yang tes Dari Rumah**. Kembali pada halaman login, kemudian klik tombol “At Home System Check” di pojok kanan atas layar.

2. Setelahnya akan terdapat 3 pengecekan yaitu pada laptop/komputer peserta, yaitu **Speakers, Microphone dan Camera** seperti yang ada dibawah ini:

3. Pastikan **Speakers, Microphone dan Camera** sudah bekerja dengan baik dan tertera centang hijau seperti dibawah ini, kemudian klik Next

4. Setelah klik Next Anda akan melihat webcam Anda dalam keadaan aktif kemudian klik **Exit**.

Jika semua proses sudah berhasil dijalankan, maka laptop/komputer Anda sudah siap digunakan untuk tes
